

ProductIP joins Membership Benefit Programme

Ede – On July 1st, 2009 ProductIP and the Membership Benefits Foundation signed an agreement to promote ProductIP services to the members of 35 industry and trade associations in Europe among which FME/CWM in the Netherlands.

For ProductIP this step is an important milestone in the development of her services towards a broad

area of industry and trade; ProductIP is proud to join Members Benefits.

The Membership Benefits Programme offers and maintains benefit programmes for employers and employees in industry and trading companies in Netherlands, Belgium and Germany. Membership Benefits Programme concludes beneficial contracts for her members.

ProductIP provides an on-line expert platform for the creation, managing and sharing of technical product files, important in the sales process and when encountering market surveillance authorities.

ProductIP enables easy creation, practical use in the sales process and 10 years, 24/7 access to files.

ProductIP also provides information to industry and trade on changing technical and administrative requirements in the European Union.

Many retail, trading and manufacturing companies already benefit from the easy-to-use, secure and efficient ProductIP system.
