**4. Notification Number**

2020/0325/S - C00C

**5. Title**

Regulations amending the Public Health Agency of Sweden's Regulations (FoHMFS 2014:10) on alcoholic preparations

**6. Products Concerned**

Alcoholic preparations

**7. Notification Under Another Act**

-

**8. Main Content**

The draft means that there will be more alternative substances for denaturing ethanol in disinfectants. The ethanol in disinfectants with an ethanol content of 75 percent by weight or less can then be denatured with 20 g of methyl ethyl ketone or 3 g of tertiary butanol in addition to 100 g of isopropanol.

**9. Brief Statement of Grounds**

Disinfectants are a necessary component to prevent the spread of infection of COVID-19. The purpose of supplementing approved denaturants in ethanol to be used in the manufacture of disinfectants is to increase the availability of disinfectants.

**10. Reference Documents - Basic Texts**

Reference(s) to basic text(s): The Alcohol Ordinance (SFS 2010:1636)

The basic texts were forwarded with an earlier notification: 2010/74/S: 2013/158/S

**11. Invocation of the Emergency Procedure**

Yes

**12. Grounds for the Emergency**

The Regulations need to be amended as the lack of access to disinfectants constitutes a hazard to life or health. The Regulations are amended as there is a high demand for hand and surface disinfectants due to the ongoing outbreak of COVID-19. A situation has arisen where the hitherto only approved denaturant isopropanol has become scarce.

**13. Confidentiality**

No

**14. Fiscal measures**

No

**15. Impact assessment**

-

**16. TBT and SPS aspects**

TBT aspect

No - the project has no significant impact on international trade.

SPS aspect

No - the draft is neither a sanitary nor phytosanitary measure.
