

How confident are you?

We are ready for PPWR!

4.8

Not agree

Totally agree

Packaging Files can be made based on EPR data

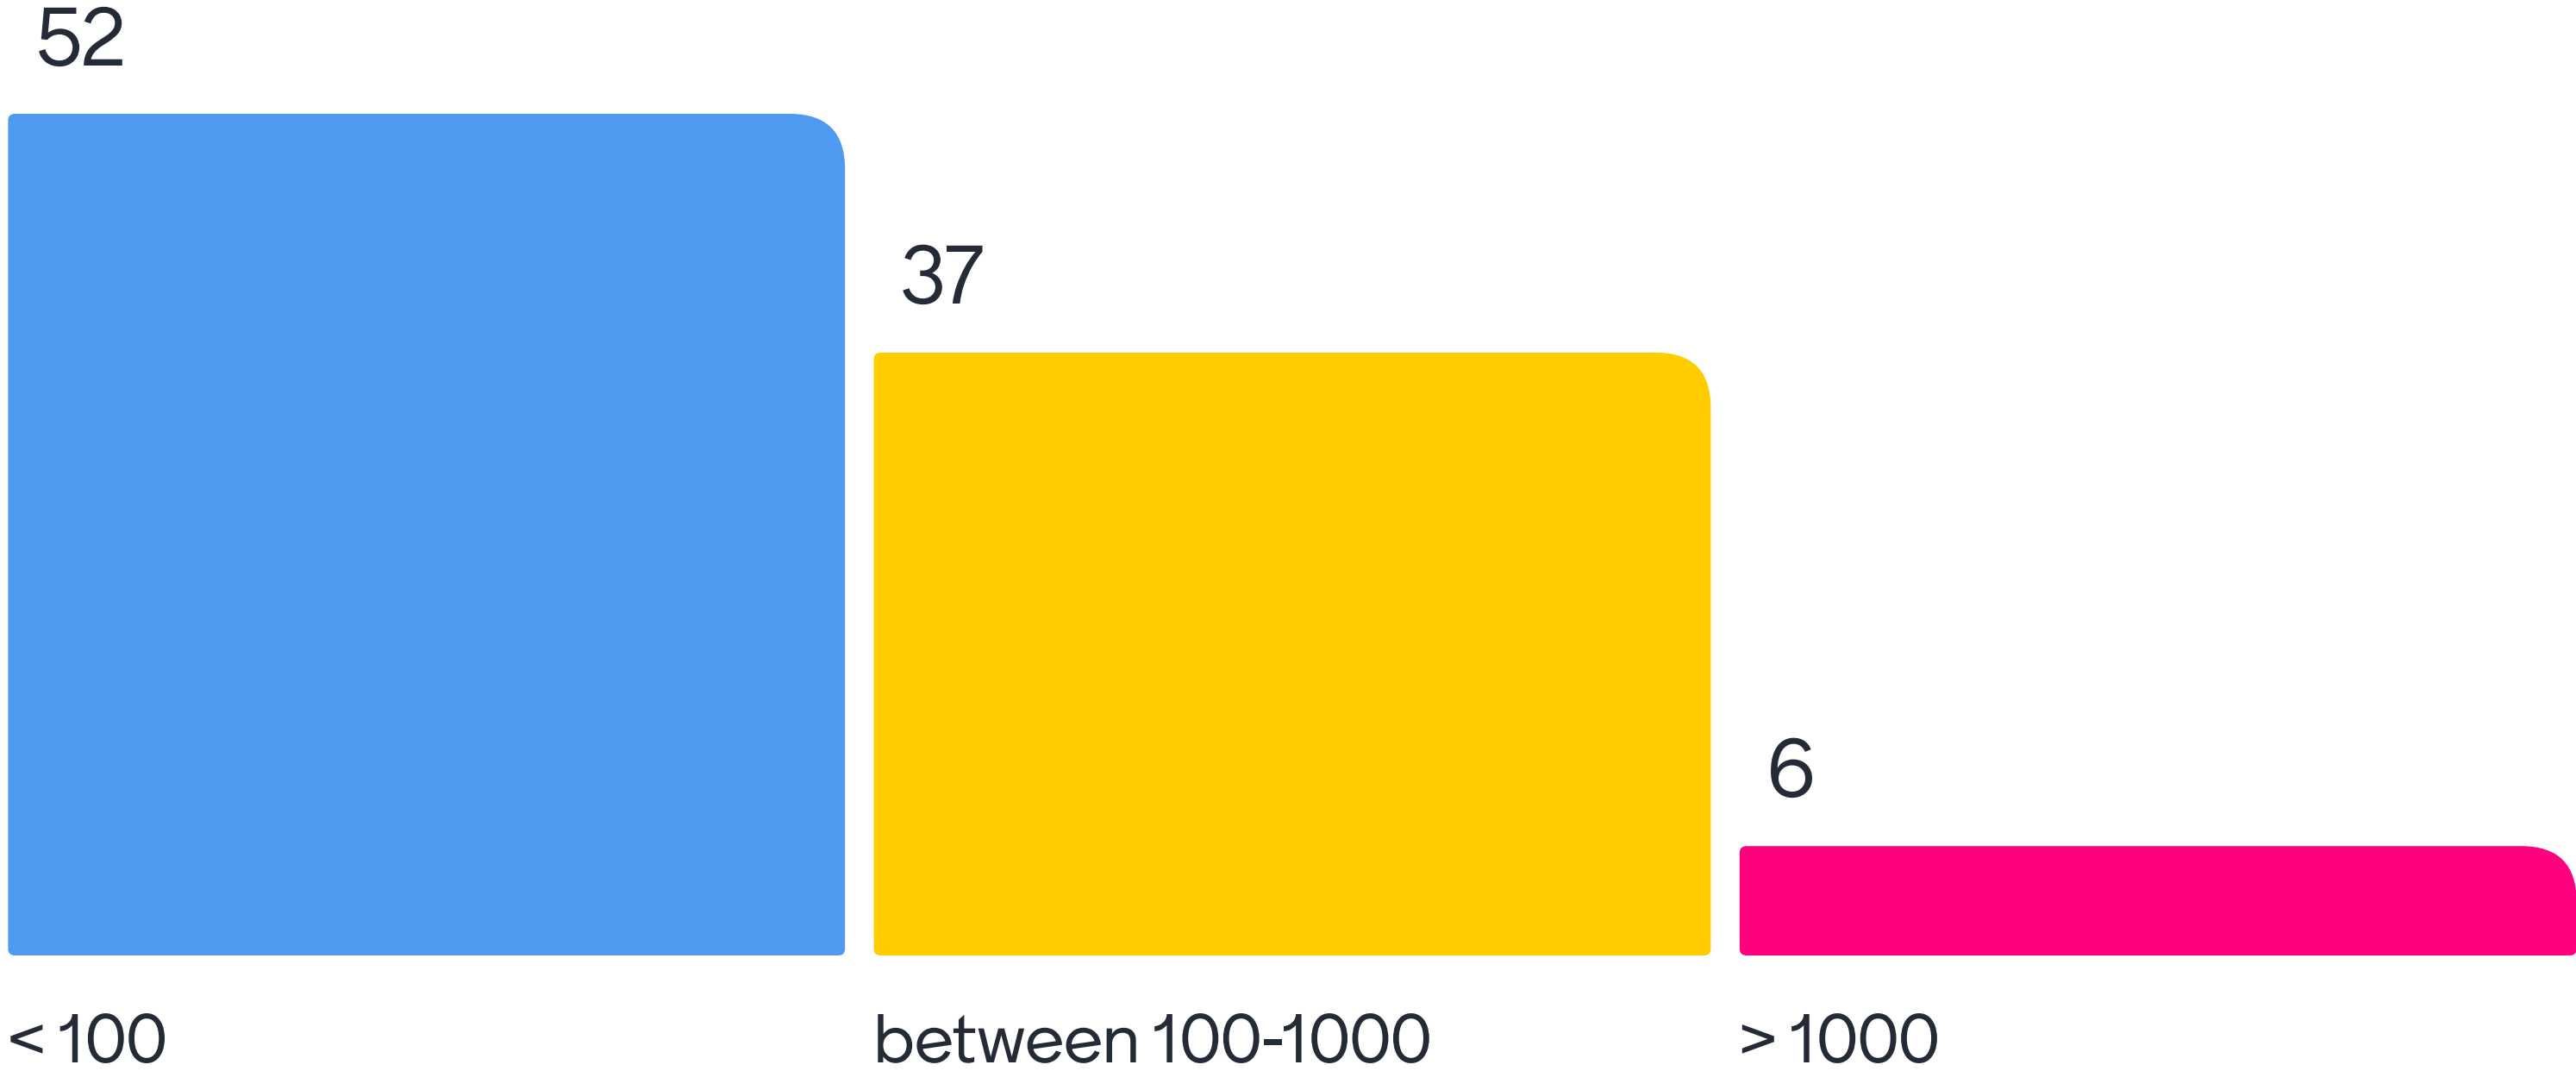

We have the EPR data and can use that for a packaging file

3.2

FALSE

TRUE

How many suppliers do you have. 1st tier

What is your biggest ROCK regarding PPWR implementation?

Getting in for from suppliers

Setting a responsible team and colleagues.

ProductIP

Data collection

Data Quality

Document management system

Role clarification

Getting data from Asian suppliers

What is your biggest ROCK regarding PPWR implementation?

Data from suppliers

Lack of transparency

Getting the correct data

Taking inventory of packaging.

Getting correct information from suppliers

Proces management

supply chain

Complicated

What is your biggest ROCK regarding PPWR implementation?

Fata collection

Data quality

Getting correct and clear Information

Lack of knowledge at suppliers

getting data intelligent data handling

Data collection

Eu Doc

Data quality

What is your biggest ROCK regarding PPWR implementation?

Inter departmental communication

Data collection and clarifying the roles

Customers inquiries

Supply chain

Data

To get information

Available data from many suppliers

Data gathering

What is your biggest ROCK regarding PPWR implementation?

Data collection

Specific details of the packaging like printing oil etc

getting info from suppliers

Lacking clear data requirements

Data from suppliers of our packaging

Non EU companies with EU subsidiaries

Packaging test reports

Handling all the information

What is your biggest ROCK regarding PPWR implementation?

Data Collection

Getting the right data.
(AI?)

Data collection

Getting the data

Data collection and
administration burden

Suppliers

Quality of the data
collected

Time consuming

What is your biggest ROCK regarding PPWR implementation?

Getting data

Data collection and quality, data completeness

Getting data from Asia Suppliers

Data from suppliers especially test data

Readiness and willingness from producer to provide all relevant information

Getting information from supplier

Data collection

Supplier are Not understanding the requirement. And I think they will Not send us that Infos automatically in the Future

What is your biggest ROCK regarding PPWR implementation?

Re-using data and test reports
Creating declaration of conformity

Suppliers data

All the correct data from the suppliers

Lack of time

Knowledge of value chain of the packing

Getting info from suppliers
